

Coronavirus

A Social Story for Talking to Your Child

Sometimes people get sick.

Coronavirus is a new virus that can make people sick, but our family is fine.

Insert photo of your child or family here.

Our family and the adults at school are here to make sure I stay safe and healthy.

Coronavirus is thought to be spread when people are in close contact with one another - when an infected person coughs or sneezes.

Washing hands can help keep us all safe and healthy.

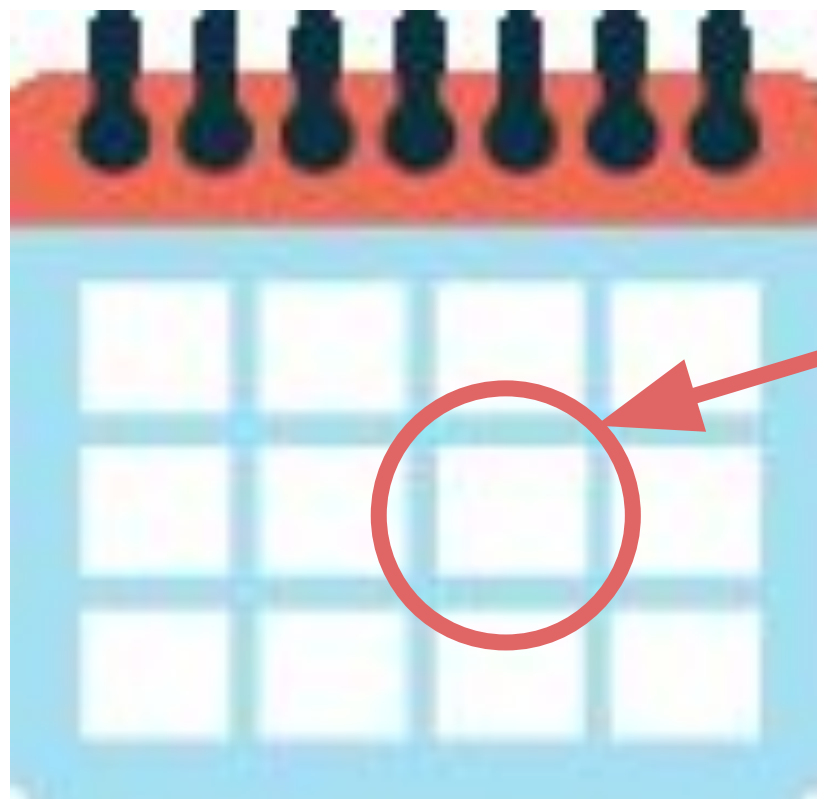

To keep everyone safe and healthy,
school might need to be closed until the
germs are gone.

If school is closed, I can learn at home.

My teachers and family will help me stay on track at home and will tell me when we can all go back to school.

*Back to
School*

If I want to talk more about the
Coronavirus, my teachers and family are
here to listen.
