# Introduction

This report provides Class of 2022 on-time graduation and dropout rates for the division, regions, and schools with a graduating class, including the distribution of diploma types. Data tables and graphs offer comparisons to prior year outcomes. The report highlights the distribution of diploma types. At the division and region levels, graphs provide visualization of the five-year comparison for on-time graduation rates and diploma distribution. Additional visualizations and outcome details, including state comparisons, may be found in the [Virginia School Quality Profiles](#), under the *College & Career Readiness* tab.

## Visualization Notes:

- **Summary Tables (*Division/Region/School by Student Group*):** Class of 2022 cohort details plus calculated change ( $\Delta$ ) in on-time graduation and dropout rates over five years (2018 to 2022)
- **Bar Graphs (*Division/Region by Student Group*):** Five-year trends in on-time graduation rates
- **Donut Graphs (*Division/Region Overall*):** Three-year comparison for the All Students group diploma type distributions
- **Stacked Bar Graph with Data Tables**
  - (*Division by Student Group*): Three-year comparison of diploma type distribution for each student group, with counts of diplomas awarded
  - (*Division by Primary Disability Type*): Three-year comparison of diploma type distribution for students with disabilities with counts of diplomas awarded by primary disability type

## Data Notes:

- **Graduation Rates:** Graduate outcomes reflect Virginia's on-time graduation rate (OGR), which counts students graduating with a state board-approved diploma within four years of entering ninth grade. Virginia OGR calculations allow adjustments for students with disabilities (SWD) and English learners (ELs) who, under federal and state law, may take *longer than four years* to earn a diploma and still count as “on-time” graduates, using a process known as “sliding.”
  - When looking at the **calculated change ( $\Delta$ )** in graduation rates from 2018 to 2022, a **positive** value represents a gain toward the goal of 100%. For example, a “ $\Delta$  Grad Rate '18 to '22” value of +2.5 shows improvement, whereas a value of -2.5 depicts regression.
- **Dropout Rates:** Dropout outcomes represent all non-graduate and non-completer students who have discontinued school, including students whose status is “unconfirmed” by the state.
  - When looking at the **calculated change ( $\Delta$ )** in dropout rates from 2018 to 2022, a **negative** value represents a reduction toward the goal of 0%. For example, a “ $\Delta$  Dropout Rate change '18 to '22” value of -1.5 shows improvement, whereas a change of +1.5 depicts regression.
- **Diploma Types:** Diploma outcomes reflect all [state board-approved diplomas](#).
  - *Advanced Studies Diplomas* include students earning International Baccalaureate Diplomas.
  - *Standard Diplomas* reported for 2019 and 2018 include—respectively—two and three students receiving Modified Standard Diplomas, which were available to certain students with disabilities who entered ninth grade for the first time in 2012-13 or prior.
  - *Applied Studies Diplomas* are available only to certain students with disabilities under specific state guidelines.
- **Student Groups:** For the purposes of state reporting:
  - The EL group combines current ELs eligible for English for Speakers of Other Languages (ESOL) services (levels 1-5) and former ELs in their first four years of monitoring (levels 6a-6d).
  - The SWD group reflects only students with an individualized education program (IEP).
- **Suppression:** Graduate and dropout data for student groups with a small number represented within the senior cohort (less than 10) are suppressed to protect personally identifiable information. An exception under the Family Educational Rights and Privacy Act (FERPA) allows small values to be reported when the student group’s graduation rate is 100%.

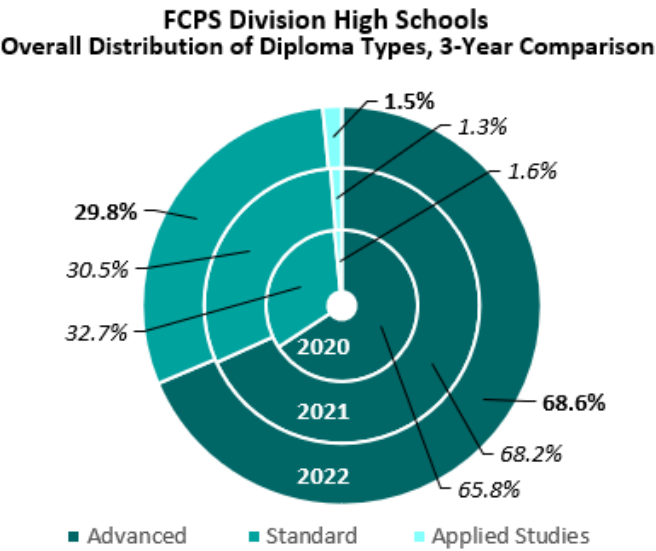

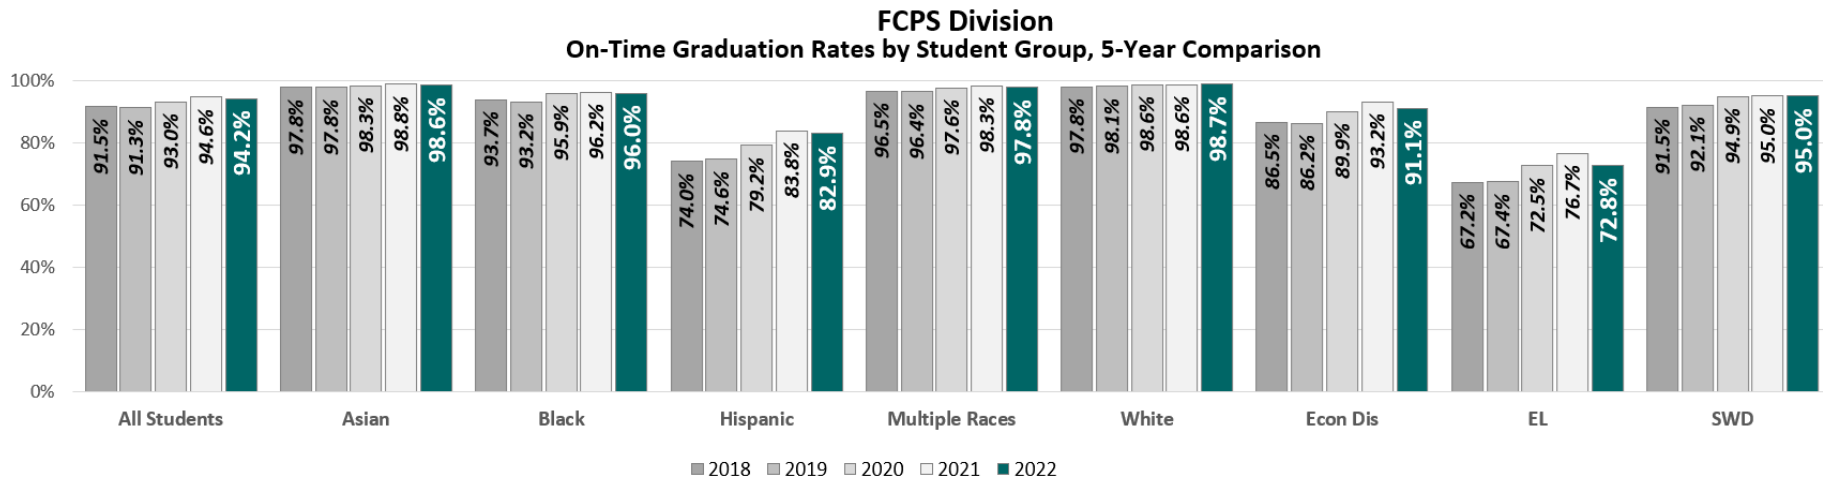

## Data Sources:

- Graduate, dropout, and diploma outcomes for division, schools, and all student groups are pulled from the VDOE Single Sign-on for Web Systems (SSWS) 4-Year OGR Detail Reports, as of September 29, 2022.
- Diploma outcomes for students with disability by primary disability type are pulled from the VDOE Cohort Graduation Build-A-Table tool, as of September 29, 2022.
- Region aggregations are calculated internally by the FCPS Office of Assessment and Reporting.

\* FCPS Division calculations include all 30 Fairfax County schools with a graduating class and represent the on-time graduation rates and dropout rates publicly reported by VDOE. The 30 reported schools include the division's 24 traditional high schools, Thomas Jefferson High regional governor's school, three (3) non-traditional high schools with state-approved alternative accreditation plans, and two (2) special education public day schools with state-approved alternative accreditation plans.
