

## Educational, Inclusive, and Assistive Technology Tiers of Support

### Tier 3: Assistive Technology Tools

[Assistive Technology \(AT\) Tools](#) are recommended when a student requires them to access the curriculum. AT coaches conduct evaluations in collaboration with IEP/504 teams. Coaching is ongoing and modifications to AT recommendations are made as needed. Successful AT implementation is a collective responsibility of the team.

### Tier 2: Inclusive and Accessible Technology Tools

[Other Approved Tools](#) in the FCPS Digital Ecosystem are supplemental tools for use by all students and may be individually assigned. These tools can be used to differentiate instruction and provide access to curriculum. They can be documented as accommodations by an IEP/504 team if a student requires them. AT coaches can consult with school teams to provide information regarding use of inclusive and accessible technology tools.

### Tier 1: Educational Technology Tools

The [Core Tools](#) of the FCPS Digital Ecosystem are available for use by all students. These tools can be used to differentiate instruction and provide access to curriculum. They can be documented as accommodations by an IEP/504 team if a student requires them. AT coaches can consult with school teams to provide information regarding use of educational technology tools.
